I just received a phone call from Joe Dunlop stating the project George Finnegan was relying on to pay the permit fees by late September fell through. He is working on one now that will be closing the 1st of November and he asked if he could pay half the \$1300 now and the other half mid November.

I told him I would let Tom know, because Tom was preparing to issue Notices of Violation - which would carry pretty stiff penalties with them. He appreciates us letting him pay 1/2 and then 1/2 again.
